

## **Installation of the MG Icon**

1. Right click on the MG Icon link, immediately above the link to instructions, where you printed this document.
2. The computer will give you a number of options, select 'Save Target As'
3. Download the MG.ICO file and save it on your local disc. It can be saved anywhere but suggest you save it to: c:\windows directory.
4. Once the file has been downloaded close all windows and have the desktop displayed on your screen.
5. Right Click the Mouse and a number of options will appear – select 'NEW'
6. Select 'Shortcut'
7. Type in command line <http://www.mgytypes.org> or if your ISP still has problems connecting via the front door – <http://www.mgcars.org.uk/mgccy/index.htm>
8. Right Click on the Icon and select 'Properties'
9. Select 'Change Icon'
10. Select 'browse' and type in the directory that you have saved your Icon to: eg c:/windows
11. Select the MG Icon
12. Select 'Open'
13. Select 'OK'
14. Select 'Apply'

When this is complete you should be able to click on the MG Icon and it will take you straight to the MG Y Types Website.

Happy Surfing.
