

The marriage of fine Italian coachcraft and British sports car chassis results in the daring Zagato M.G. Instigated by Roger Barlow of International Motors during a visit abroad, the great Zagato has succeeded in creating a body having bold, yet smooth, appearance for the famous 1¼-litre M.G. chassis. Very careful

design has preserved the traditional M.G. radiator styling in a graceful modern manner. The standard M.G. saloon, posed alongside the sleek Zagato, brings to focus the new trend.

Not intended as an addition to the M.G. line, this product of Carrozzeria La Zagato will be available on special order only.
