

YT Special Completed

by George G. Werbizky #8635

While on the Circuit of Britain, during our stay in Bath, we met Sandy Henderson from Bristol. He was interested in our YT and we were glad to show him our car. Sandy was not just restoring a YA, but he was turning it into a convertible! A drop-head as they're called in England.

I frankly had doubts about the whole project. It's difficult to restore a car to its original condition. Here the

project included significant body changes. A few days ago a letter arrived from Sandy with two photographs of the completed car. A YT Special. Certainly the car is magnificent and Sandy is to be congratulated on an excellent and unique accomplishment. I'm glad to have been able to be helpful in a very small way.

Great job, Sandy!
